Reusable Firefighter Training Masks

www.dewipe.com/eclipse

What are De-Wipe Eclipse Blackout Masks?

Eclipse Blackout Masks are developed by firefighters for firefighters, Creating a hassle-free mask to better replicate smoky conditions for more effective in-service training.

The easy to apply mask is fogged out to create realistic smoke conditions. The reusable, durable static-cling

sticker affixes to the mask exterior without leaving any residue or damaging expensive equipment.

With the De-Wipe Eclipse Blackout Mask, there is no need for home-made solutions that risk leaving residue, costly smoke machines, or expensive commercial options.

“ *The Dewipe Eclipse mask gave us the closest effect of a realistic smoke filled environment. This is a cost effective alternative to live fire training.* ”

- TRAINING INSTRUCTOR WITH 25 YEARS

Join the countless fire services that are using De-Wipe Eclipse Blackout Masks for the most realistic, cost-effective, high quality training mask on the market.
